Interests

- Reading

CAPACITI

I am a recent graduate in Application Development with a robust foundation in business analysis. Known for thriving in collaborative environments, I have a proven track record of working effectively within teams. My strong interest in SAP systems drives my enthusiasm for leveraging technology, particularly SAP solutions, to tackle real-world business challenges.

Committed to continuous professional development, I am focused on enhancing my skills in both software development and business analysis. My objective is to deliver impactful SAP implementations that streamline business processes and contribute to organizational success.
